March 20, 2020

Dear Members,

The Board met this morning to discuss the ever-changing situation with the COVID-19 virus. As with many business, schools and restaurants, the impact of this virus is reaching the lives of everyone. Our main goal is to keep our membership and our employees as safe as possible during this time. The board has decided on the following restrictions effective immediately:

- We realize you may think of the club as a place to temporarily get away from the stresses that this pandemic has brought to us all, but please understand it only takes one person to start a local outbreak. To prevent community spread, we strongly suggest that you **do not use** the lodge facility at this time. The lodge will not be closed, but we want our members to understand the risk of using common facilities, especially for those that are considered high risk for severe complications to this virus. Treat all surfaces like they are contaminated. Try to restrict visits to day visits only.
- Do not come to the club if you are experiencing flu like symptoms.
- The committees (lodge, lake, grounds) will convene in small groups of less than 5 people to conduct activities such as planting, lake maintenance and lodge maintenance
- There will be no food service from the caretakers
- We will be suspending guest privileges at the club.
- If you visited the club, and become sick with a fever >100.4 degrees **during** or up to **14 days** after your visit, please contact the Board.
- Do not visit the Club grounds if you are under quarantine.

This is an ever-changing situation, and we will be informing with updates as much as needed. We do not know how long we need to keep these restrictions in place, but we will be using the [CDC](#) and [Missouri](#) restrictions from our Governor as guidance.

We also understand that you may have a lot of questions or concerns with these decisions. Please reach the Board of the Directors directly.

Sincerely,

Dennis Forbush
President
